

# Craftex Product Specification Sheet

## SCRUBEX 110:750

The Scrubex 110:750 is a highly user-friendly scrubbing machine suitable for maintenance cleaning of surfaces up to 6000m<sup>2</sup>, which allows a dramatic reduction in the cost of cleaning.

With two disc brushes giving a working width of 750mm this machine was designed in order to replace a walk-behind scrubbing machines, with the aim to drastically reduce cost per square metre.

The machine can be used for up to four hours thanks to the optimization of energy consumption. The compact size allows the machine to pass through doorways or be transported in lifts.

With the Scrubex 110:750, it is possible to operate the machine either manually or automatically. In the manual mode, the squeegee and the brush head are controlled by two independent levers. In the automatic mode a working program selector allows the user to choose from four pre-set working programs. Once the program is selected, the operator only has only drive and the machine will do the rest!

### Scrubbing Width

750mm

### Solution | Recovery Tank

110L | 125L

### Squeegee Width

970mm

### Brushes

2 x disk (300mm)

### Power Supply

Battery (24V)

### Noise Level

60dB

### Dimensions

1495 x 1320 x 680mm

### Performance | Run Time

4500m<sup>2</sup>/hour | 4 hours

# SCRUBEX 110:750

Thanks to its compact dimensions, this machine can replace a walk-behind scrubbing machine, reducing the cost per square metre. It can pass through doors and be transported in lifts with ease.

The automatic version is equipped as standard with Eco device that guarantees a very low noise level, ideal for use in highly noise-sensitive environments such as nursing homes and hospitals.

The machine is equipped with an automatic working program selector that allows the user to choose either Transfer, Drying, Scrubbing/Drying or Scrubbing only. Select the program and let the Scrubex 110:750 do the rest!

In the manual version the squeegee and the brush head are controlled by two independent levers - very simple to use.

Thanks to the optimization of energy consumptions, the Scrubex 110:750 can be used for up to four working hours. The Start&Stop system gives increases working time up to 35% than previous models.

The CDS (Chemical Dosing System) device, available on request, adjusts the correct dosage of water and detergent ensuring solution saving up to 50%.

Automatic retraction of the brush head and squeegee when accidentally impacted to avoid damage to the machine or the environment.
