

Craftex Product Specification Sheet

CONTOUR 1500S

The Contour 1500S is very quiet in use enabling it to be used in areas where discretion is required during cleaning operations.

No maintenance needed thanks to the direct drive operation, which translates into large savings over time. The machine has an exceptional balancing system and a gas spring on the handle ensuring ease and convenience of use.

The machine is easily moved, thanks to the special transportation wheels.
