

Craftex Product Specification Sheet

SWEEPEX 50-770

The Sweepex 50-770 is the big brother to the Sweepex 25-550. A wider sweeping range, and an increased hopper capacity mean this machine can operate in larger areas with ease. This machine has been specifically designed for exterior cleaning. Equipped with two circular brushes, it picks up material such as dead leaves, wrappers, cigarette stubs and other litter as well as general dust and dirt found outdoors.

Sweeping Range

770mm

Hopper Capacity

50 litres

Coverage Performance

2900m²/h
