

Craftex Product Specification Sheet

SCRUBEX 70:560

Due to its very compact dimensions, the Scrubex 70:560 is able to replace a traditional walk behind scrubbing machine in maintenance cleaning of surfaces up to 3000m².

The reduced dimensions and the driving wheel of this model give the needed manoeuvrability to perform in small spaces, meaning the user has the compactness of a walk behind machine but with the speed and user-friendliness of a ride-on unit.
