

Craftex Product Specification Sheet

SWEEPEX 420:1500D

The Scrubex 420:1500D is suitable for cleaning the most resistant dirt on outdoor and indoor surfaces such as those of department stores and car parks up to 10,000m².

The diesel operated unit has been designed to easily collect both solid debris and light dust and comes with a work-track of 1350mm with one side brush. The hydraulic system with solenoid valve and direct distributors is very simple and reliable and the controls are extremely practical to use. An oil cooler is fitted with an independent thermostat and solenoid valve in order to keep oil temperature within the ideal range and ensure best efficiency. In this way consumption is reduced and components' life extended. Shown with optional overhead guard.

Sweeping Width

1500mm

Hopper Capacity

420L

Coverage Performance

13,175m²/h

Diesel Motor

Perkins (28)

Type of Drainage

Hydraulic

Weight

1100kg (exc. batteries)

Dimensions

2330 x 1720 x 1510mm

Working Time

Unlimited

Unit 11, Carnforth, Business Park, Oakwood Way, LA5 9FD
