

Craftex Product Specification Sheet

SCRUBEX 40:500BT0

The Scrubex 40:500BT0 is a high performing, walk be- hind scrubbing machine with an oscillating rectangular pad, offering high performances for both maintenance and heavy duty cleaning of floors up to 2200m².

The unit has a rectangular pad and a pressure die-cast aluminum frame that guarantees reliability and sturdiness over time. Intuitive drive, with few and easy controls, ensures the machine is easy to operate, and due to it's compact size and silent operation of <66 dB(A), it is versitle enough to meet the cleaning needs of several sectors.

The operator will find the machine very easy to use and to manoeuvre. Its compact size makes it an ideal model for several sectors including healthcare, hospitality, large-scale retailing, automotive and public institutes.

Solution Tank Capacity

40 litres

Recovery Tank Capacity

60 litres

Vacuum Motor

120mbar | 24V

Pad

355 x 508mm

Oscillations/min

2300

Squeegee Width

700mm

Scrubbing Path

508mm

Noise Level

<66 dB(A)

Machine Weight

90kg (exc. batteries)

Dimensions

1175 x 500 x 990mm

Performance

1780m²/h

Run Time

3 hrs
