

# Craftex Product Specification Sheet

## SCRUBEX 160:1000

The Scrubex 160:1000 is a ride on scrubbing machine with a robust design, suitable for working in different areas, both commercial and industrial. Excellent performance is assured, whether cleaning hard floors in warehouses and logistic centers or finer surfaces typically found in shopping malls.

Comfort and complete control over the machine is ensured by the operator position and easy controls. The driver's seat offers full visibility of the whole working area and the new instrument panel has been designed to make its use easier. There is a button for the automatic brush uncoupling. The large tank capacity increases working autonomy whilst a double wall chamber means the machine is very quiet in use.

It is possible to choose three different working speeds and brush pressure levels to adjust the machine to any condition.

### Solution Tank Capacity

160 litres

### Recovery Tank Capacity

160 litres

### Vacuum Motor

320W | 190mbar

### Brush Motor

24V | 140rpm

### Brush

85kg pressure

### Disk Brushes

2 x 510mm Ø

### Squeegee Width

1120mm

### Scrubbing Path

1000mm

### Machine Weight

320kg (exc. batteries)

### Machine Size (L x W x H)

1777 x 1265 x 1055mm

### Forward Speed

0-8kmh

### Run Time

3.5 hrs

### Performance

6550m<sup>2</sup>/hour
