

Craftex Product Specification Sheet

SWEEPEX 40:650PT

The Sweepex 40:650PT is suitable for the cleaning of indoor and outdoor surfaces up to around 1200m².

With a 650mm working width, this unit is extremely manoeuvrable and compact. The handle bar grip, made of comfortable plastic material, makes for easy operation of control levers and cleaning corners and along the walls is made simple thanks to the side brush. The panel filter, with its large filtering surface, retains dust particles very effectively and the front and side flaps play an important role in keeping the dust down during operation. The Sweepex 40:650PT can be used on wet or damp surfaces by operating the suction switch-off lever.
