

Craftex Product Specification Sheet

SWEEPEX 105:1120P

The Sweepex 105:1120P is suitable for cleaning surfaces up to 10,000m².

With automatic traction and a petrol engine. With its two side brushes, the Sweepex 105:1120P covers a working width of 1120mm. The Sweepex 105:1120P is equipped with a complete hydraulic system and have no electronic cards. This means increased reliability when working in particularly dirty conditions. The debris hopper has an automatic lifting and emptying operation.
